

When a child enters the dependency system for the first time, they are eligible for a clothing voucher in the amount of \$100. The foster parent should purchase what the child needs and submit the receipts to the Placement Department for reimbursement.

On an annual basis, usually during the summer months, all children in care will receive a clothing allowance check in the amount of \$300. This money is to assist with preparing the child for back to school, but should only be spent on clothing items and shoes, not school supplies.
